

Single magnetic Technical Parameters:

- 1. Power supply : AC220V or AC380V
- 2. Working Voltage : DC180V-360V
- 3. Working current : 190A
- 4. Max. power : 32.5KW
- 5. Rated suction: 17.500kg

V7

- 6. Maximum pulling force: 52.500kg
- 7. Weight: about 3.830kg

Use 2 magnetic modules combine together

Steel plate:

Width: Between 875 to 1.850mm

Length: between 7.300 to 9.950mm

Max. weight: 34 TON

Indicative Weight: 10.500kg

Indicative drawing. We reserve the right to modify the design at any time
